

WHAT'S YOUR *next* STEP?

2021-2022

**For the fifth consecutive year,
New Vistas
is designating January through March
as a time
for our families to preview the next
school year / grade level.**

Please call or email to set up an appointment to meet directly with one of our teachers or administrators presently working with your child's next grade level. We will be available to answer questions, show you the curriculum we will be using, and if possible introduce you to teachers in the grade level team. If your child has been online for an extended period of time, these forms of communication are even more important.

This would also be a good time to set an appointment with Mrs. Roher or a member of her testing team, to review your child's current achievement tests scores, look at the Spring testing they will be doing, and talk about how our tests help influence curriculum and instructional levels for your child in the 2021-2022 school year.

Our reading specialist, Mrs. McFadyen can be available to talk with you about your child's reading progress and look ahead at the individual reading program opportunities for your child.

During the third quarter, parent meetings will be available **Tuesdays, Wednesdays and Thursdays** and we are able to set aside as much time as you need. Please note: We can discuss siblings at the same time!

We have always prided ourselves on the wonderful relationships we have with our families and know that close communication creates the very best outcome for students.

Call our office to schedule at 480-963-2313
